Keep track of groups.
Drill down into the
details.

Pin conversations

Pin any conversation to keep it at the top of your conversation list. Tapbacks, typing indicators, and recent messages animate above pins.

And for quick access to your important conversations, your pins sync across your iPhone, iPad, and Mac.

Inline replies

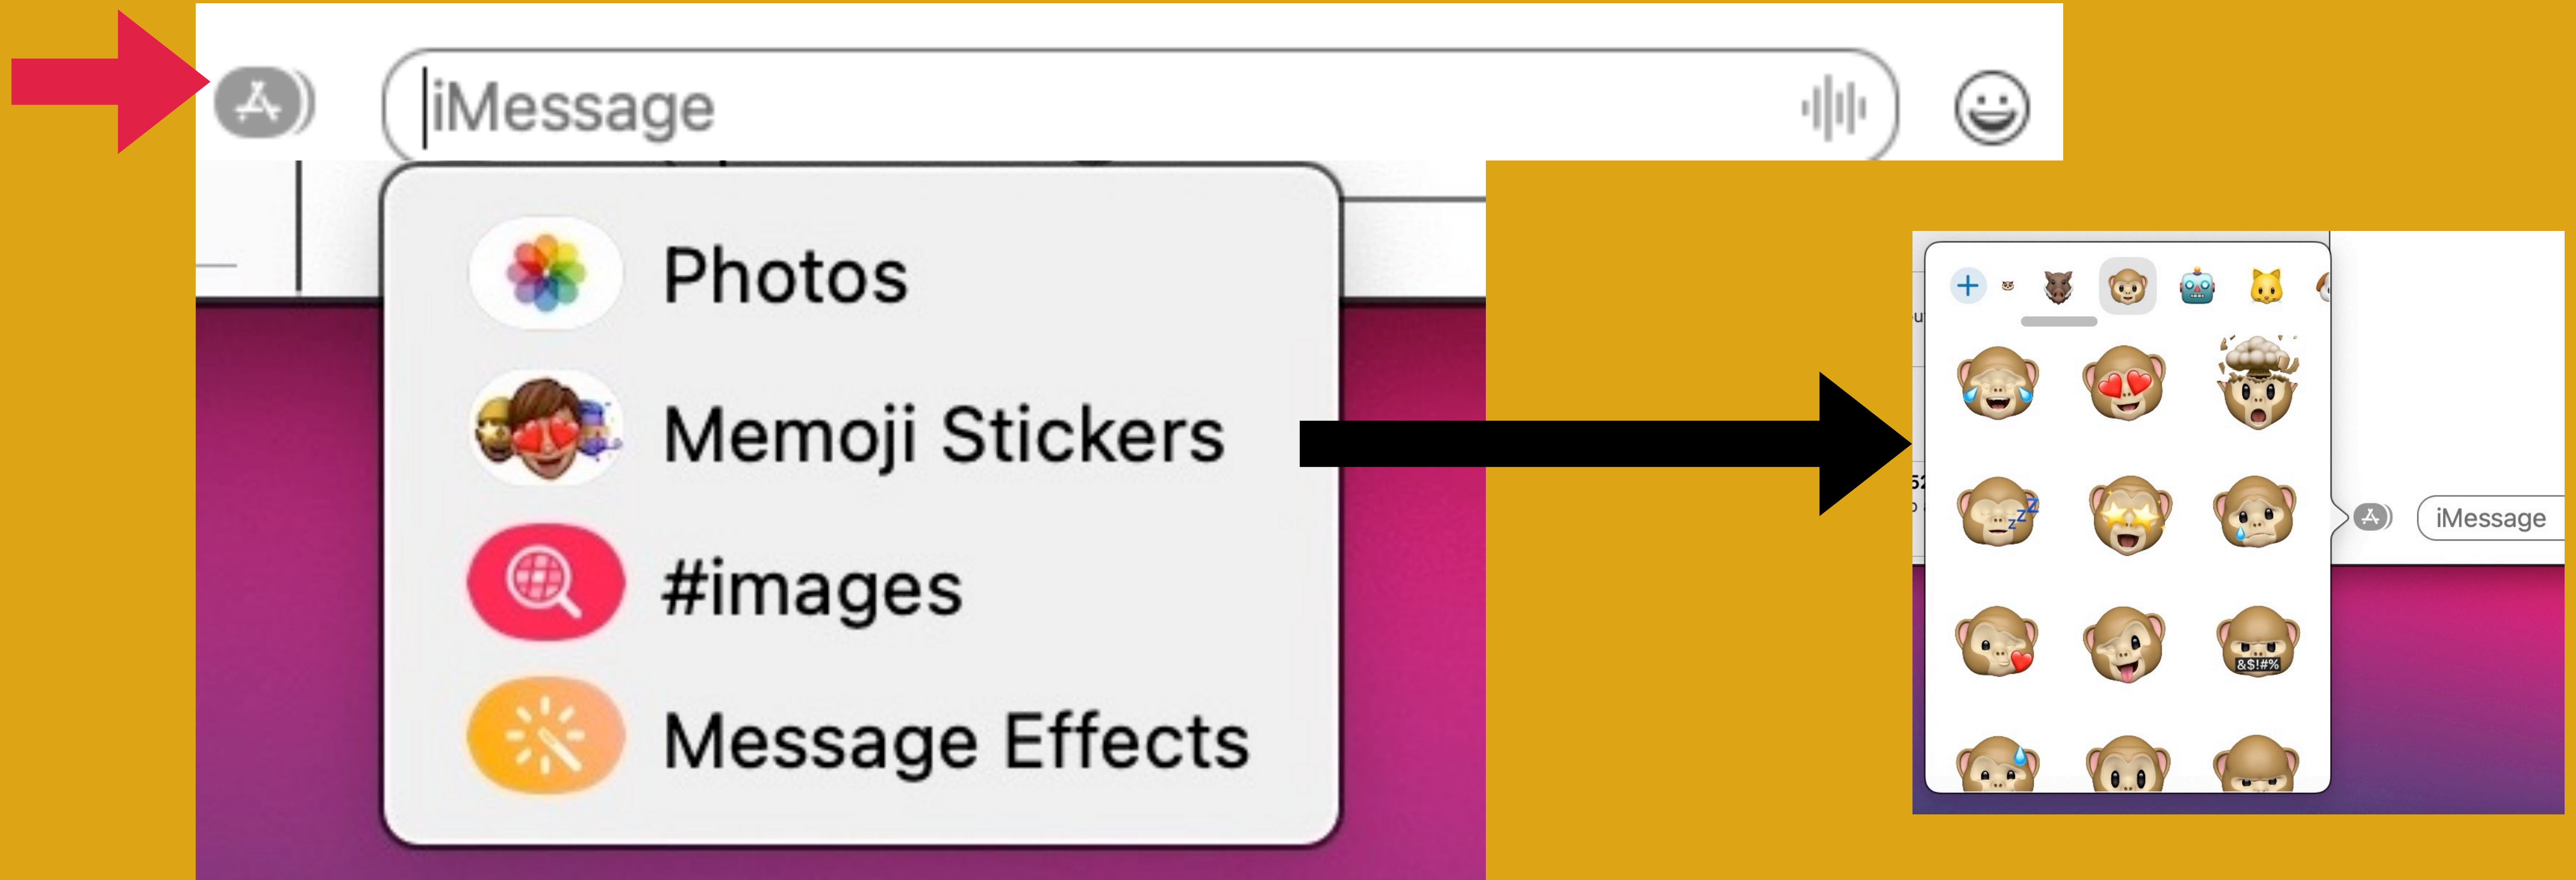

Reply directly to specific messages in any conversation. Messages automatically starts a new thread under the original reply, so if someone asks a question in a group conversation, it's easy to keep track of all the replies.
