## Introducing iCloud+

Get everything you already love about iCloud — and new features including iCloud Private Relay and Mail Privacy Protection

A VPN is a Virtual Private Network

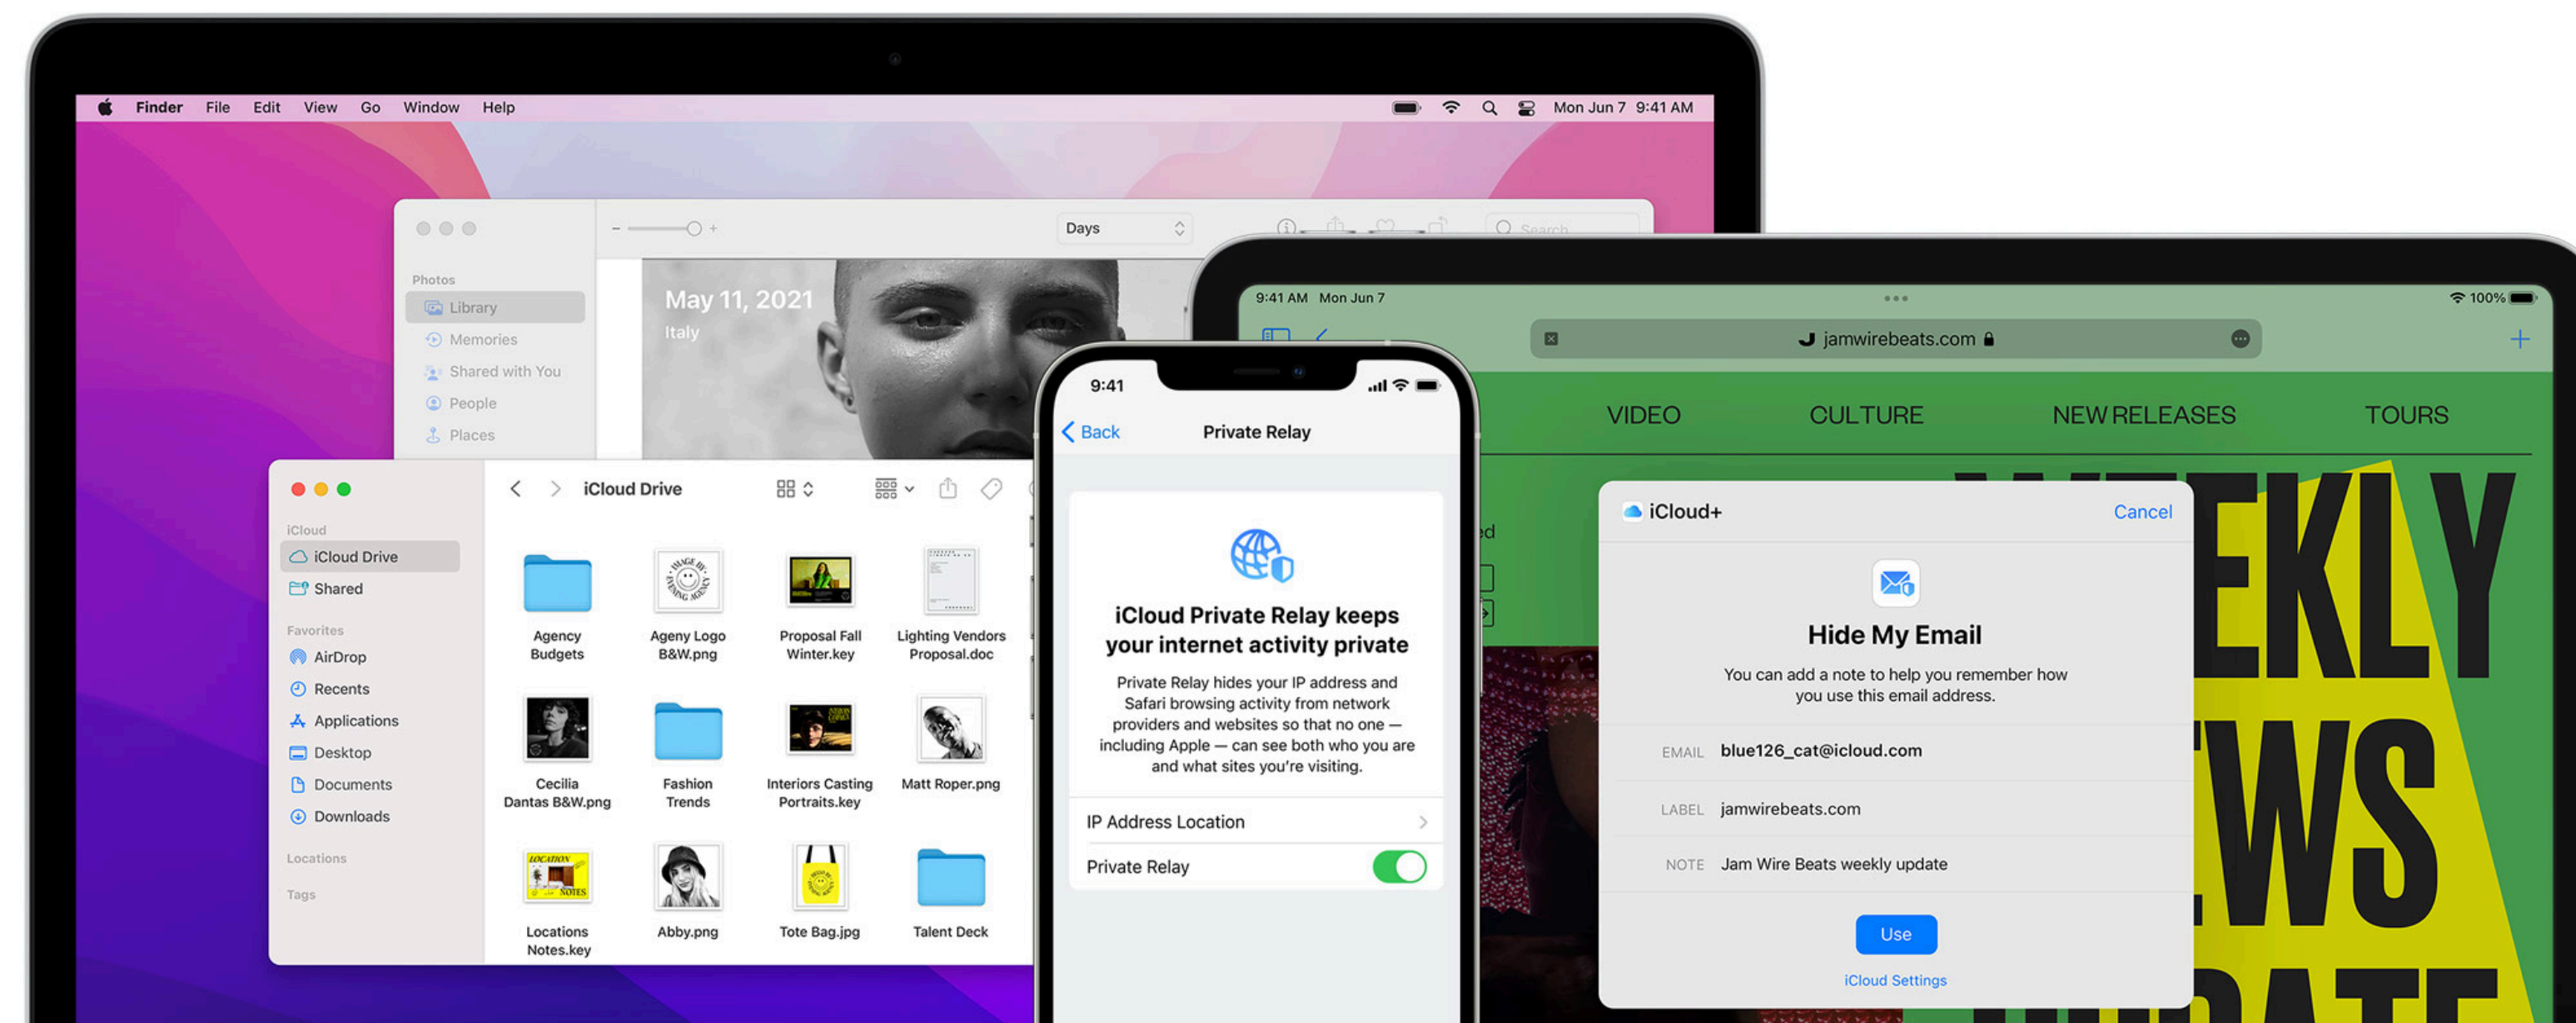

# The Talk Show Remote From WWDC 2021

# iCloud+

iCloud has always kept your important information — like photos, documents, and notes — safe, up to date, and accessible across all your devices. Now iCloud+ takes that experience a step further, with an all-new subscription that will replace today's storage plans.<sup>6</sup>

iCloud+ plans: 50GB with one HomeKit Secure Video camera (\$0.99/month.), 200GB with up to five HomeKit Secure Video cameras (\$2.99/month.), and 2TB with an unlimited number of HomeKit Secure Video cameras (\$9.99/month.).

# iCloud+

## Security Features

iCloud private relay hides web history and IP address  
Hide My email generates undue random email addresses

## Share Time in FaceTime

FaceTime users will soon have the ability to watch and listen to the same content during a call and share screens.

Android and Windows users can now get invited to FaceTime calls for the first time. (Through their browser)

---

# Apple ID

## Account Recovery Contacts

Choose one or more people you trust to become an Account Recovery Contact to help you reset your password and regain access to your account.

## Digital Legacy program

The Digital Legacy program allows you to designate people as Legacy Contacts so they can access your account and personal information in the event of your death.
